## UNITED STATES DISTRICT COURT

for the  
Western District of Washington

In the Matter of the Search of  
 (Briefly describe the property to be searched  
 or identify the person by name and address)  
 The cellular telephone assigned call number  
 (206) 430-8643, with IMSI 310260627576408

Case No.

MJ19-061

## APPLICATION FOR A SEARCH WARRANT

I, a federal law enforcement officer or an attorney for the government, request a search warrant and state under penalty of perjury that I have reason to believe that on the following person or property (identify the person or describe the property to be searched and give its location):  
 See Attachment A, incorporated herein by reference. Because the government has satisfied the requirements of 18 U.S.C. § 3122, this warrant also constitutes an order under 18 U.S.C. § 3123.

located in the Western District of Washington, there is now concealed (identify the person or describe the property to be seized):

See Attachment B, incorporated herein by reference.

The basis for the search under Fed. R. Crim. P. 41(c) is (check one or more):

- evidence of a crime;
- contraband, fruits of crime, or other items illegally possessed;
- property designed for use, intended for use, or used in committing a crime;
- a person to be arrested or a person who is unlawfully restrained.

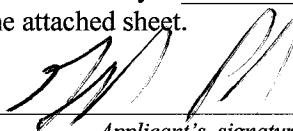

The search is related to a violation of:

| <i>Code Section</i>          | <i>Offense Description</i>                     |
|------------------------------|--|
| 21 U.S.C. §§ 841(a)(1) & 846 | Conspiracy to distribute controlled substances |

The application is based on these facts:

See affidavit in support of search warrant. To ensure technical compliance with 18 U.S.C. §§ 3121-3127, the warrant will also function as a pen register order. I thus certify that the information likely to be obtained is relevant to an ongoing criminal investigation conducted by the DEA. See 18 U.S.C. §§ 3122(b), 3123(b).

- Continued on the attached sheet.
- Delayed notice of \_\_\_\_\_ days (give exact ending date if more than 30 days: 05/07/2019) is requested under 18 U.S.C. § 3103a, the basis of which is set forth on the attached sheet.

## **ATTACHMENT B**

### **I. Information to be Disclosed by the Provider**

All information about the location of **Target Telephone 1** described in Attachment A for a period of thirty days, during all times of day and night. “Information about the location of **Target Telephone 1**” includes all available E-911 Phase II data, GPS data, latitude-longitude data, and other precise location information, as well as all data about which “cell towers” (i.e., antenna towers covering specific geographic areas) and “sectors” (i.e., faces of the towers) received a radio signal from the cellular telephone described in Attachment A.

To the extent that the information described in the previous paragraph (the “Location Information”) is within the possession, custody, or control of T-Mobile, T-Mobile is required to disclose the Location Information to the government. In addition, T-Mobile must furnish the government all information, facilities, and technical assistance necessary to accomplish the collection of the Location Information unobtrusively and with a minimum of interference with T-Mobile’s services, including by initiating a signal to determine the location of **Target Telephone 1** on T-Mobile’s network or with such other reference points as may be reasonably available, and at such intervals and times directed by the government. The government shall compensate T-Mobile for reasonable expenses incurred in furnishing such facilities or assistance.

This warrant does not authorize the seizure of any tangible property. In approving this warrant, the Court finds reasonable necessity for the seizure of the Location Information. *See* 18 U.S.C. § 3103a(b)(2).

## **II. Information to be Seized by the Government**

All information described above in Section I that constitutes evidence of violations of 21 U.S.C. §§ 841(a)(1) and 846, involving Darren Singh.

## **AFFIDAVIT OF GEOFFREY PROVENZALE**

**STATE OF WASHINGTON**

)

## COUNTY OF KING

)

I, Geoffrey Provenzale, having been duly sworn, state as follows:

## INTRODUCTION AND AGENT BACKGROUND

1. I make this affidavit in support of an application for a search warrant under Federal Rule of Criminal Procedure 41 and 18 U.S.C. §§ 2703(c)(1)(A) for information about the location of the cellular telephone assigned call number **(206) 430-8643**, with International Mobile Subscriber Identity (“IMSI”) 310260627576408, with listed subscriber “Executive Transportation and Services, 6900 132nd PL SE Apt 5-405 Newcastle, WA,” (hereinafter “Target Telephone 1” or “TT1”), whose service provider is T-Mobile, a wireless telephone service provider headquartered at 4 Sylvan Way, Parsippany, New Jersey. TT1 is described herein and in Attachment A, and the location information to be seized is described herein and in Attachment B.

2. Because this warrant seeks the prospective collection of information, including cell-site location information, that may fall within the statutory definitions of information collected by a “pen register” and/or “trap and trace device,” *see* 18 U.S.C. § 3127(3) & (4), the requested warrant is designed to also comply with the Pen Register Act. *See* 18 U.S.C. §§ 3121-3127. The requested warrant therefore includes all the information required to be included in an order pursuant to that statute. *See* 18 U.S.C. § 3123(b)(1).

3. I am a Special Agent (SA) with the United States Drug Enforcement Administration (DEA), and have been so employed since April 2015. I am currently assigned to the Seattle Field Division. In this capacity, I investigate violations of the Controlled Substances Act, Title 21, United States Code, Section 801 et seq., and related offenses. I have received specialized training in the enforcement and investigation of the Controlled Substances Act. I have received over 620 hours of classroom training including but not limited to, drug identification, drug interdiction, detection, money laundering

1 techniques and schemes, smuggling, and the investigation of individuals and/or  
2 organizations involved in the illegal possession, possession for sale, sales, importation,  
3 smuggling, cultivation, manufacturing and illicit trafficking of controlled substances.

4       4. In my role as a Special Agent, I have negotiated for and purchased narcotics  
5 acting in an undercover capacity. I have participated in narcotics investigations (i.e.,  
6 heroin, fentanyl, cocaine, marijuana, and methamphetamine) that have resulted in the arrest  
7 of individuals and the seizure of illicit narcotics and/or narcotic-related evidence and the  
8 forfeiture of narcotics related assets. I have been involved in the service of search warrants  
9 as part of these investigations. As a result of my experience in serving these search  
10 warrants, I have encountered and have become familiar with various tools, methods, trends,  
11 paraphernalia and related articles utilized by various traffickers in their efforts to import,  
12 conceal, and distribute controlled substances. I am also familiar with the various methods  
13 of packaging, delivering, transferring, and laundering drug proceeds. Additionally,  
14 through my training and experience, I can identify illegal drugs by sight, odor, and texture.

15       5. I have written affidavits in support of court authorized federal warrants and  
16 orders in the Western District of Washington for T-III interceptions, GPS tracking of  
17 telephones, search warrants, and tracking of vehicles. Additionally, I have testified in  
18 grand jury proceedings, written investigative reports, and conducted and participated in  
19 numerous interviews of drug traffickers of various roles within drug organizations, which  
20 has provided me with a greater understanding of the methods by which drug trafficking  
21 organizations operate.

22       6. The facts in this affidavit come from my personal observations, my training  
23 and experience, and information obtained from other agents and witnesses. This affidavit  
24 is intended to show merely that there is sufficient probable cause for the requested warrant  
25 and does not set forth all of my knowledge about this matter.

26       7. Based on the facts set forth in this affidavit, there is probable cause to believe  
27 that violations of 21 U.S.C. §§ 841(a)(1) and 846, relating to distribution of controlled  
28 substances, have been committed, are being committed, and/or will be committed by

Darren Singh. There is also probable cause to believe that the location information

1 described in Attachment B will constitute evidence of these criminal violations, and will  
2 lead to the identification of individuals who are engaged in the commission of these  
3 offenses.

4       8. The court has jurisdiction to issue the proposed warrant because it is a “court  
5 of competent jurisdiction” as defined in 18 U.S.C. § 2711. Specifically, the Court is a  
6 district court of the United States that has jurisdiction over the offense being investigated,  
7 *see* 18 U.S.C. § 2711(3)(A)(i).

## **PROBABLE CAUSE**

9        9. The United States, including the DEA, is conducting a criminal investigation  
10 of Darren Singh regarding possible violations of 21 U.S.C. §§ 841(a)(1) and 846. In  
11 December 2018, a confidential source (CS1)<sup>1</sup> informed law enforcement he/she was aware  
12 of a narcotics trafficker selling large quantities of MDMA in Western Washington. CS1  
13 identified the narcotics trafficker to investigators as Darren Singh. CS1 stated to  
14 investigators that Singh generally has access to ten kilograms of MDMA at any given time.  
15 CS1 also provided (253) 226-1137 (hereinafter “TT2”) as a contact number for Singh.

16        10. During December 2018, a recorded phone call was placed from CS1 to TT2,  
17 believed to be utilized by Singh. During the phone call, a male answered TT2, who CS1  
18 later stated he/she knew to be Singh. CS1 inquired about Singh's availability, and trying  
19 to set "it" up for a weekend. Singh asked CS1, "They want three you said?" CS1 replied  
20 they wanted three or five but that CS1 was trying to work it out. Singh replied, "Ok no  
21 problem." Based on my training and experience, I believe when CS1 was inquiring about  
22 Singh's availability and stated he/she was attempting to set "it" up for a weekend, Singh  
23 believed CS1 was referring to a narcotics transaction with potential customers. I also  
24 believe when Singh inquired if the customers wanted "three" he was asking CS1 if the  
25 customers wanted three kilograms of a narcotics substance, in this instance MDMA.

<sup>27</sup> 1 CS1 was recently arrested on a state narcotics violation and is cooperating with investigators  
<sup>28</sup> under an active cooperation agreement with Seattle Police Department. In addition to the recent  
narcotics arrest, an NCIC check revealed CS1 has an arrest history that includes felony arrests for  
narcotics offenses and possession of a stolen firearm.

1       11. On December 21, 2018, King County Superior Court Judge Patrick Oishi  
 2 signed a state tracking warrant authorizing the real time GPS location tracking of TT2.  
 3 Initial tracking data for TT2 showed the phone was located near 6900 132nd PL SE,  
 4 Newcastle, WA. According to the Washington Department of Licensing (WA DOL),  
 5 "Darren Arvin Singh" lists 6900 132nd PL SE Apt 5-405, Newcastle, WA as his residence  
 6 on his Washington driver's license. Initially, TT2 did not appear to move from the area of  
 7 the aforementioned address. I believe this indicated that Singh had traveled somewhere  
 8 and had left TT2 behind.

9       12. On December 26, 2018, investigators received notification from U.S.  
 10 Customs and Border Protection (CBP) that Darren Singh had crossed into the U.S. from  
 11 Canada. CBP advised that Singh had stated to CBP he was residing at 6900 132nd PL SE  
 12 Apt 5-405, Newcastle, WA, and provided **206-430-8643 (TT1)** as his phone number. Upon  
 13 Singh's return from Canada, TT2 began to "ping" at locations other than Singh's suspected  
 14 residence, indicating Singh had begun to carry it with him.

15      13. During the first week of January 2019, CS1 stated that Singh had contacted  
 16 him/her and had told CS1 that he was ready to complete the previously arranged narcotics  
 17 transaction. According to CS1, Singh also stated that the narcotics were in another car that  
 18 was nearby, waiting for Singh to call. CS1 advised Singh he/she would be ready later in  
 19 the day. CS1 and Singh agreed to meet later in the day at a Casino, located in Tukwila,  
 20 WA, between 2:30 p.m. and 3:00 p.m.

21      14. On the same date, at approximately 11:45 a.m., investigators established  
 22 surveillance in the area of TT2. Electronic tracking data for TT2 showed TT2 was  
 23 "pinging" near a restaurant in Tukwila, WA. Upon arrival in the area of the "ping,"  
 24 investigators located a Honda Accord (WA/ANV4168) investigators previously had  
 25 observed Singh driving during this investigation.

26      15. At approximately 11:58 a.m., investigators observed Singh meeting with an  
 27 unidentified Hispanic male (UM1) in a Best Buy parking lot, located at 17364 Southcenter  
 28 Parkway, Tukwila, WA. Singh had traveled to the Best Buy in the Accord.

1       16. At approximately 12:01 p.m., Singh and UM1 separated. Investigators  
 2 observed UM1 enter into the Best Buy, and Singh depart the area in the Accord. At  
 3 approximately 12:14 p.m., investigators observed UM1 enter into a KIA sedan  
 4 (WA/ARP9660) after UM1 had exited the Best Buy. The KIA then departed the area. At  
 5 approximately 12:48 p.m., investigators located the KIA sedan at Southcenter mall on top  
 6 of a parking garage. Surveillance was maintained on the KIA. According to WA DOL,  
 7 the KIA is registered to "Camilo Castano."

8       17. Based on my training and experience, I believe UM1 was in possession of  
 9 the narcotics CS1 was "ordering" through Singh. I further believe that Singh was meeting  
 10 with UM1 to inform him that the narcotics transaction would happen later in the afternoon.

11       18. At approximately 2:00 p.m., CS1 and Singh met. CS1 relayed to  
 12 investigators that Singh had called the individual delivering the narcotics, and instructed  
 13 that individual to go to a nearby Jack in the Box to conduct the transaction. At  
 14 approximately 2:17 p.m., investigators observed UM1 enter the KIA and depart the parking  
 15 garage. Investigators maintained surveillance on the KIA. At approximately 2:25 p.m., I  
 16 observed the KIA arrive at a Jack in the Box restaurant located at 16400 W. Valley Hwy,  
 17 Tukwila, WA. Shortly thereafter, the KIA departed the Jack in the Box without meeting  
 18 with any individuals. Several minutes later, the KIA drove to a Value Village, located at  
 19 16700 Southcenter Parkway, Tukwila, WA. This location is adjacent to a Double Tree  
 20 hotel. At this approximate time, CS1 informed investigators that Singh had changed the  
 21 meet location to the Double Tree.

22       19. At approximately 2:40 p.m., UM1 was observed at the trunk of the KIA by  
 23 investigators. Seattle Police Department (SPD) officers then detained UM1 at the trunk of  
 24 the KIA. UM1 was identified as Camilo Castano-Villegas. After Castano-Villegas was  
 25 detained investigators observed his phone ringing. The number displayed was 253-226-  
 26 1137 (TT2).

27       20. Castano-Villegas was read his *Miranda* Warnings by investigators, and he  
 28 stated he understood them to investigators. Castano-Villegas then signed a consent to  
 search of his vehicle. Investigators searched his vehicle while he was present and located

1 approximately four kilograms of MDMA within the KIA. Investigators later field tested  
 2 the narcotics with positive results for MDMA.

3       21. To investigators' knowledge, Singh has only communicated with CS1 and  
 4 Castano-Villegas using TT2. Toll analysis of TT2 from the period of January 7, 2019,  
 5 through January 13, 2019, reveals that TT2 was in communication with six unique phone  
 6 numbers during that time period. Four of the phone numbers have area codes from the  
 7 state of Washington.

8       22. During the same time period, toll analysis of **TT1** reveals that **TT1** was in  
 9 communication with 77 unique phone numbers. Over a third of the phone numbers  
 10 contacted are area codes used outside of the state of Washington.

11       23. I believe both **TT1** and TT2 are utilized by Darren Singh. Washington State  
 12 Department of Revenue indicates that the subscriber for **TT1**, "Executive Transportation  
 13 and Services," is the name of a business that was governed by "Darren Singh." The  
 14 business license for Executive Transportation and Services expired on April 30, 2017,  
 15 becoming inactive during September 2017. In addition to providing **TT1** as a contact  
 16 number upon returning to the U.S. from Canada, Singh appears to utilize **TT1** much more  
 17 frequently and contact more individuals on **TT1** than on TT2.

18       24. Singh often appears to leave TT2 at his residence, making it difficult to track  
 19 Singh's movements. In an effort to mitigate this, on January 26, 2018, investigators  
 20 installed a tracking device, pursuant to state court order, on Singh's Accord. However,  
 21 since installation of the device, Singh has not used the Accord to the extent he did  
 22 previously.

23       25. During the week of January 27, 2019, TT2 has not left the area of Singh's  
 24 known apartment in Newcastle, WA. However, the phone has remained powered on until  
 25 recently. I believe Singh has been traveling via a different vehicle, and has left TT2 at  
 26 home for extended periods of time. As stated above, during December 2018, Singh left  
 27 TT2 at home and took **TT1** with him to Canada. **TT1** has also been active since 2012  
 28 indicating that Singh has used **TT1** for a long period of time and that it may be his

"primary" phone or a phone he uses with more trusted individuals. CS1 and law

Affidavit of SA Provenzale - 6  
 2019R00130

UNITED STATES ATTORNEY  
 700 STEWART STREET, SUITE 5220  
 SEATTLE, WASHINGTON 98101  
 (206) 553-7970

1 enforcement databases indicate Singh is part of a larger organization that traffics narcotics  
 2 from Mexico, through the U.S., to Canada. **TT1** communicates with numerous numbers  
 3 with area codes from out of state to include numbers with area codes from Toronto,  
 4 Vancouver B.C., New York City, and California.

5       26. Based on my training and experience, it is common for narcotics traffickers  
 6 to use more than one phone. At times, narcotics traffickers will utilize separate phones for  
 7 multiple reasons such as using one phone for trusted individuals, and another for those who  
 8 the trafficker believes he cannot trust. In addition, at times traffickers will segregate  
 9 phones for "business" (trafficking in narcotics) and use a separate phone for friends and  
 10 family. I further believe, due to the frequency with which Singh now utilizes **TT1** as  
 11 compared to **TT2**, Singh is still in possession of **TT1**, and tracking **TT1** will allow  
 12 investigators to better observe Singh and his unlawful activities.

13       27. In my experience, drug traffickers frequently make use of cellular telephones  
 14 to arrange their drug transactions. Drug traffickers often discontinue the use of these  
 15 cellular telephones on a frequent basis in order to thwart law enforcement efforts at  
 16 detection. It is also my experience that telephone location data is useful in corroborating  
 17 movements of targets, especially suspected drug traffickers. When used in conjunction  
 18 with physical surveillance, telephone location data is useful to identify vehicles, locations,  
 19 and individuals involved in ongoing drug trafficking schemes. Additionally, telephone  
 20 location data can show that a target telephone is used by a particular individual by  
 21 connecting physical surveillance of that individual with evidence of the telephone's use.  
 22 Telephone location data therefore often provides evidence utilized in the seizure of  
 23 narcotics and the fruits and instrumentalities of narcotics trafficking.

24       28. In my training and experience, I have learned that T-Mobile is a company  
 25 that provides cellular telephone access to the general public. I also know that providers of  
 26 cellular telephone service have technical capabilities that allow them to collect and  
 27 generate information about the locations of the cellular telephones to which they provide  
 28 service, including E-911 Phase II data, also known as GPS data or latitude-longitude data  
          and cell-site data, also known as "tower/face information" or cell tower/sector records. E-

1 911 Phase II data provides relatively precise location information about the cellular  
2 telephone itself, either via GPS tracking technology built into the phone or by triangulating  
3 on the device's signal using data from several of the provider's cell towers. Cell-site data  
4 identifies the "cell towers" (i.e., antenna towers covering specific geographic areas) that  
5 received a radio signal from the cellular telephone and, in some cases, the "sector" (i.e.,  
6 faces of the towers) to which the telephone connected. These towers are often a half-mile  
7 or more apart, even in urban areas, and can be 10 or more miles apart in rural areas.  
8 Furthermore, the tower closest to a wireless device does not necessarily serve every call  
9 made to or from that device. Accordingly, cell-site data is typically less precise than E-911  
10 Phase II data.

11        29. Based on my training and experience, I know that T-Mobile can collect E-  
12 911 Phase II data about the location of **TT1**, including by initiating a signal to determine  
13 the location of **TT1** on T-Mobile's network or with such other reference points as may be  
14 reasonably available.

15        30. Based on my training and experience, I know that T-Mobile can collect cell-  
16 site data about **TT1**. Based on my training and experience, I know that for each  
17 communication a cellular device makes, its wireless service provider can typically  
18 determine: (1) the date and time of the communication; (2) the telephone numbers  
19 involved, if any; (3) the cell tower to which the customer connected at the beginning of the  
20 communication; (4) the cell tower to which the customer connected at the end of the  
21 communication; and (5) the duration of the communication. I also know that wireless  
22 providers such as T-Mobile typically collect and retain cell-site data pertaining to cellular  
23 devices to which they provide service in their normal course of business in order to use this  
24 information for various business-related purposes.

## **AUTHORIZATION REQUEST**

26       31. Based on the foregoing, I request that the Court issue the proposed search  
27 warrant, pursuant to Federal Rule of Criminal Procedure 41 and 18 U.S.C. § 2703(c).

32. I further request, pursuant to 18 U.S.C. § 3103a(b) and Federal Rule of

Criminal Procedure 41(f)(3), that the Court authorize the officer executing the warrant to

**Affidavit of SA Provenzale - 8  
2019R00130**

UNITED STATES ATTORNEY  
700 STEWART STREET, SUITE 5220  
SEATTLE, WASHINGTON 98101  
(206) 553-7970

1 delay notice until 90 days after the collection authorized by the warrant has been  
2 completed. There is reasonable cause to believe that providing immediate notification of  
3 the warrant may have an adverse result, as defined in 18 U.S.C. § 2705. Providing  
4 immediate notice to the subscriber or user of **TT1** would seriously jeopardize the ongoing  
5 investigation, as such a disclosure would give that person an opportunity to destroy  
6 evidence, change patterns of behavior, notify confederates, and flee from prosecution. *See*  
7 18 U.S.C. § 3103a(b)(1). As further specified in Attachment B, which is incorporated into  
8 the warrant, the proposed search warrant does not authorize the seizure of any tangible  
9 property. *See* 18 U.S.C. § 3103a(b)(2). Moreover, to the extent that the warrant authorizes  
10 the seizure of any wire or electronic communication (as defined in 18 U.S.C. § 2510) or  
11 any stored wire or electronic information, there is reasonable necessity for the seizure for  
12 the reasons set forth above. *See* 18 U.S.C. § 3103a(b)(2).

13       33. I further request that the Court direct T-Mobile to disclose to the government  
14 any information described in Attachment B that is within the possession, custody, or  
15 control of T-Mobile. I also request that the Court direct T-Mobile to furnish the  
16 government all information, facilities, and technical assistance necessary to accomplish the  
17 collection of the information described in Attachment B unobtrusively and with a minimum  
18 of interference with T-Mobile's services, including by initiating a signal to determine the  
19 location of **TT1** on T-Mobile's network or with such other reference points as may be  
20 reasonably available, and at such intervals and times directed by the government. The  
21 government shall reasonably compensate T-Mobile for reasonable expenses incurred in  
22 furnishing such facilities or assistance.

23       34. I further request that the Court authorize execution of the warrant at any time  
24 of day or night, owing to the potential need to locate **TT1** outside of daytime hours.

25       35. I further request that the Court order that all papers in support of this  
26 application, including the affidavit and search warrant, be sealed until further order of the  
27 Court. These documents discuss an ongoing criminal investigation that is neither public  
28 nor known to all of the targets of the investigation. Accordingly, there is good cause to

1 seal these documents because their premature disclosure may seriously jeopardize that  
2 investigation.

## CONCLUSION

4       36. Based on the foregoing, I submit there is probable cause to believe that  
5 violations of 21 U.S.C. §§ 841(a)(1) and 846, relating to distribution of controlled  
6 substances, have been committed, are being committed, and/or will be committed by  
7 Darren Singh. There is also probable cause to believe that the location information  
8 described in Attachment B will constitute evidence of these criminal violations, and will  
9 lead to the identification of individuals who are engaged in the commission of these  
10 offenses.

**GEOFFREY PROVENZALE**  
Special Agent  
Drug Enforcement Administration

Subscribed and sworn to before me this 7 day of February, 2019.

**MARY ALICE THEILER**  
United States Magistrate Judge

1                   **ATTACHMENT A**

2                   **Property to Be Searched**

3                  1. The cellular telephone assigned call number (206) 430-8643, with  
4 International Mobile Subscriber Identity (“IMSI”) 310260627576408, with listed  
5 subscriber “Executive Transportation and Services, 6900 132nd PL SE Apt 5-405  
6 Newcastle, WA,” (**“Target Telephone 1”** or “TT1”), whose service provider is T-Mobile,  
7 a wireless telephone service provider headquartered at 4 Sylvan Way, Parsippany, New  
8 Jersey.

9                  2. Records and information associated with **Target Telephone 1** that is within  
10 the possession, custody, or control of T-Mobile, including information about the location  
11 of the cellular telephone if it is subsequently assigned a different call number.

ATTACHMENT A  
2019R00130

UNITED STATES ATTORNEY  
700 STEWART STREET, SUITE 5220  
SEATTLE, WASHINGTON 98101  
(206) 553-7970

1                   **ATTACHMENT B**

2           **I. Information to be Disclosed by the Provider**

3           All information about the location of **Target Telephone 1** described in Attachment  
4 A for a period of thirty days, during all times of day and night. "Information about the  
5 location of **Target Telephone 1**" includes all available E-911 Phase II data, GPS data,  
6 latitude-longitude data, and other precise location information, as well as all data about  
7 which "cell towers" (i.e., antenna towers covering specific geographic areas) and "sectors"  
8 (i.e., faces of the towers) received a radio signal from the cellular telephone described in  
9 Attachment A.

10          To the extent that the information described in the previous paragraph (the  
11 "Location Information") is within the possession, custody, or control of T-Mobile, T-  
12 Mobile is required to disclose the Location Information to the government. In addition, T-  
13 Mobile must furnish the government all information, facilities, and technical assistance  
14 necessary to accomplish the collection of the Location Information unobtrusively and with  
15 a minimum of interference with T-Mobile's services, including by initiating a signal to  
16 determine the location of **Target Telephone 1** on T-Mobile's network or with such other  
17 reference points as may be reasonably available, and at such intervals and times directed  
18 by the government. The government shall compensate T-Mobile for reasonable expenses  
19 incurred in furnishing such facilities or assistance.

20          This warrant does not authorize the seizure of any tangible property. In approving  
21 this warrant, the Court finds reasonable necessity for the seizure of the Location  
22 Information. *See* 18 U.S.C. § 3103a(b)(2).

23           **II. Information to be Seized by the Government**

24          All information described above in Section I that constitutes evidence of violations  
25 of 21 U.S.C. §§ 841(a)(1) and 846, involving Darren Singh.
